5. HDMI In from target server

Connecting the Equipment

Connect the Dominion KX IV–101 to the network:

- Connect the Dominion KX IV–101 to the network using the LAN port.

Connect your target server:

- Connect the target server with an HDMI cable to the Dominion KX IV–101 HDMI IN port. If the target server video is not HDMI, purchase a Raritan cable- or video-adapter.
- Connect the target server to the Dominion KX IV–101 USB IN port using the included USB cable.

Connect the power adapter:

- Newer models include a power adapter with a 4-pin connector. Push the adapter in to lock.

- Some of the original models include twist-to-lock adapters, as shown in the image below. These are marked with an arrow. Connect with the arrow facing up. Push in firmly and twist clockwise to lock. Check to ensure it is locked.

- Power on all devices.

Initial Configuration

Default login: admin/raritan

Option 1: Connect a PC to the LAN Port

Re-connect the Dominion KX IV–101 to the LAN after initial configuration.

- Disable the wireless interface of the PC, and make sure the PC is set to DHCP.
- Connect a network cable between the PC and Dominion KX IV–101 LAN port.
- Open a browser. Enter the URL "https://kvm.local". The login page appears.
- Follow the prompts to change the default password.

Option 2: Connect an iOS device at the Local Port

Required App: Raritan KVM by Raritan: <https://itunes.apple.com/us/app/raritan-kvm/id1455817539?mt=8>

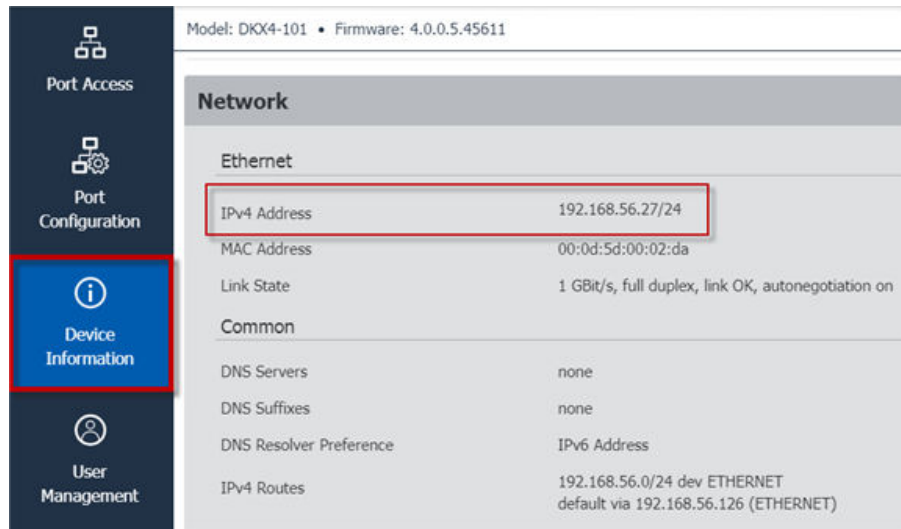

- Launch the Raritan KVM app on an iOS device.
- Connect the iOS device with the Raritan KVM app to the Dominion KX IV–101 USB port.
- Wait until the app detects the connected Dominion KX IV–101.
- Follow the prompts to change the default password.

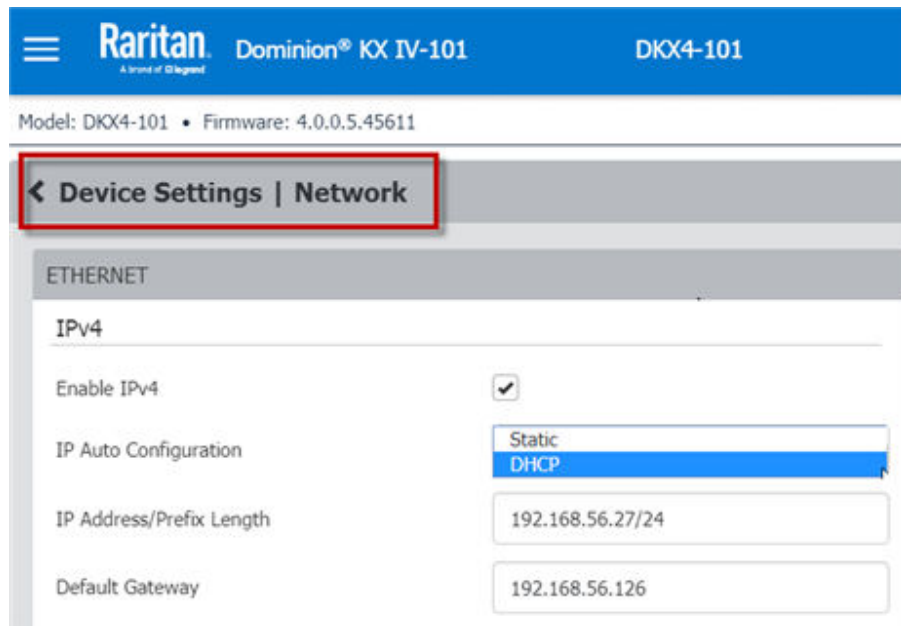

Next Steps

DHCP is enabled by default.

- If you're connected by iOS device, you can retrieve the IP address: Choose Device Information.

- To change network settings, such as setting a static IP address: Choose Device Settings > Network.

- Continue your configurations while connected with your iOS device or PC locally, or use the Dominion KX IV–101 remotely via a supported web browser using the Dominion KX IV–101's IP address.

Note: Make sure you reconnect the Dominion KX IV–101 to the LAN after configuring with a PC.

- Click the help icon in the top right corner of the web interface to access more help online.
